

BRIAN JHONG

INFORMATICS STUDENT

Education

University of Washington - Seattle

Current Year: Junior

Expected Graduation: Summer 2020

Major: Informatics (Human Computer Interaction Track)

GPA: 3.48

Experience

HUMAN CENTERED DESIGN ENGINEERING DEPT. | Summer 2017

Research Team Member

- Prototyping research group to promote reflexive thinking in engineering disciplines.
- Participated in design and prototyping of marketing techniques.

HUMAN CENTERED DESIGN ENGINEERING DEPT. | Winter 2018

Research Team Member

- Research group focused on designing more efficient ways to help elderly individuals keep track of medical information.
- Created low-fidelity prototypes with digital tools like adobe illustrator and InVision.

Side Projects

- MERN stack application that keeps track of college application information. Utilized react, redux, node.js, expres.js, and mongoDB.
- Portfolio website using HTML, CSS, Bootstrap, and JS. Provided me with a challenge because I limited the number of frameworks I could use and tested my knowledge of web development basics.
